

Kenton Lee

Hi, my name is Kenton Lee. I went to high school in a small farming community called Fleming in the northeast corner of Colorado. Upon graduating, I attended Embry-Riddle Aeronautical University in Prescott, AZ where I majored in Aerospace Engineering with an emphasis in spacecraft design. In April, I graduated with my B.S., and this fall I will be starting graduate work at the University of Colorado, Boulder. My hobbies include hiking and fishing. I am very excited to be part of the LANL Dynamics Summer School.

**Karl Erickson**

Karl will enter his 4th year as an undergraduate this fall. After earning a B.S. in electrical engineering from UCLA, Karl hopes to enter a graduate program in some kind of engineering. Eventually, Karl hopes to conduct research and teach cool subjects. When he's not in the lab or crunching homework sets, Karl spends his time training for triathlons, cycling races, and other endurance competitions.
