

**Dynamic Characterization of Carbon Foils for Space Flight Applications**  
(Mentors: Anthony Puckett, LANL)

**John Lee** - John recently graduated from Oklahoma Christian University with a Bachelors of Science in Mechanical Engineering. In the Fall of 2008 he will be attending the University of Arkansas – Fayetteville to pursue a PhD in Mechanical Engineering. He is a member of Toastmasters and his hobbies include football, basketball, and video games.

**Trevor Collins** - Trevor is currently a senior at New Mexico State University and will graduate in December with a B.S. in Mechanical Engineering, a minor in Math, and a minor in Economics. He is an officer in Pi Tau Sigma, a USA British Council Ambassador and is actively involved with international student support at NMSU. He is currently researching prospective graduate schools and will spend a semester living in England before starting in the fall of 09'. Snowboarding, surfing, and rock climbing are seasonal sports he enjoys.

**Ryan Hodge** - Ryan recently graduated from Rose-Hulman Institute of Technology with a B.S. in Mechanical Engineering and will be returning to Rose-Hulman to attain a M.S. in Mechanical Engineering. During the school year, he participates in an intercollegiate Bible study and Pi Kappa Alpha fraternity events. Ryan's other hobbies include hanging out with his nephews and nieces, working on his car, and making his fiancé happy. He is getting married at the end of the summer and looks forward to starting a new part of his life.
